Certificate of Professional Internship Completion

Sungkyunkwan University
Suwon, Korea

This is to certify that David Alejandro Torres Torres, with Ecuadorian identification number 0923042683, has successfully completed the professional internship period at Sungkyunkwan University.

During the internship, the student learned skills in autonomous robot navigation for multiple robots in warehouse environments using the ROS 1 Melodic framework and the Gazebo 9 simulator on Ubuntu 18.04. The student learned how to simulate human behavior based on social force policies, the Dijkstra algorithm for path planning, and DWA for avoiding dynamic obstacles.

We held daily meetings with the student from February 17, 2024, to May 17, 2024, considering that the student worked for 6 hours per day.

Ph.D. Nabih Pico

Postdoctoral Researcher at RISE LAB

This certificate is issued at the request of the interested party for whatever purposes they may deem appropriate.
